SUMMARY

Software Engineer with a Master's in Computer Science and 4+ years of full-stack development experience. Skilled in **Laravel**, **Vue.js**, **PHP**, **Python**, and **JavaScript**. Strong background in **e-commerce platforms**, **web applications**, and **machine learning projects**. Experienced in **database design**, **API development**, and **deployment pipelines** with **Docker** and **CI/CD**.

Core Competencies:

Full-Stack Web Development, Laravel, Vue, Database Design, RESTful APIs, CI/CD, Docker, Problem Solving, Communication Skills, Machine Learning

PROFESSIONAL EXPERIENCE

Full Stack Developer - Team Lead

Upper Company — Mashhad, Iran

Oct 2023 – Apr 2025 | On-site

- Software development across backend and frontend with focus on robust APIs and clean UI.
- Database design and deployment using CI/CD and containerized workflows.
- Delivered user-friendly interfaces with Laravel, Vue.js, HTML5, CSS, and Bootstrap css.

Independent Contractor — Full Stack Developer

Tara Solutions — Remote (Kabul-based client)

Oct 2023 – Dec 2024 | Remote

- Delivered full-stack features and fixes on tight timelines with consistent quality.
- Built and improved web apps using PHP/Laravel, Vue.js, and RESTful APIs.
- Collaborated async with stakeholders; shipped reliable releases via Git and CI/CD.

Databus Developer - Internship

Naikbeen Control Panel — Kabul, Afghanistan

Apr 2023 – Jul 2023 | On-site

- Customized and maintained multiple websites for performance and UX.
- Enhanced front-end with HTML, CSS, JavaScript; improved responsiveness.
- Managed server-side logic and database integration; handled deployments.

Junior Back-end Developer

Code9ine Company — Kabul, Afghanistan

Jan 2022 – Dec 2022 | On-site

- Developed and maintained backend features using **Laravel**.
- Implemented database queries and optimized backend logic for performance.
- Supported debugging, bug fixing, and backend feature enhancements.

EDUCATION

Master in Computer Science

GISMA University of Applied Sciences GmbH

Oct 2024 – Sep 2025

TECHNICAL SKILLS

Programming Languages:

PHP JavaScript Python Java SQL

Frameworks & Libraries:

Laravel Vue.js Flask Bootstrap
Tailwind CSS jQuery
HTML5/CSS/SCSS

Data & ML:

scikit-learn pytorch NumPy Pandas

Databases & Storage:

MySQL MongoDB

Cloud & DevOps:

Docker Git CI/CD DevOps
cPanel DirectAdmin

Architecture & Methods:

RESTful APIs MVC
Object-Oriented Programming

LANGUAGES

Dari **Native**
English **Fluent (C1)**
German **Basic (A2)**

SOFT SKILLS

- **Thesis:** Fake News Detection Using Machine Learning (DL). Achieved **98% accuracy** with best balanced F1 and recall in project results.
- **Core Subjects:** Computer Programming (python, C++), Advance programming (Java), Machine learning, Advance Database, Advance Mathematics, Data Science.
- **Research:** Leveraging Generative AI for Requirement Gathering in Software Startups.

Bachelor in Computer Science

Balkh University

2017 – 2022

- **Core Subjects:** Basic/Advance Computer Programming (Java, PHP), Basic/Advance Database, Mathematics, Networks.
- **Practical Projects :** University Library Managment System using **Laravel**.

KEY PROJECTS

- **Website Development & Improvement — styleziba.com**
Rebuilt the shop with **Laravel** and **Vue.js**. Added installments, secure payments, and staff tools. Faster with event listeners, caching, DB tuning, optimized **Eloquent**, and using **Query Builder** when needed. Built **REST APIs** and integrated finance systems. Set up **cron jobs** and **queues** for background tasks. Also added advanced search, filters, SEO, and media upload with backend resizing.
Laravel **Vue.js** **REST APIs** **Cron & Queues** **Performance** **Caching**
DB Tuning **SEO** **Media Processing**
[🔗 styleziba.com](https://styleziba.com)
- **Al-taqwa University**
Upgraded backend from Laravel 5 to **Laravel 11**. Reworked core code and backend concepts. Added **role-based permissions** and access control. Improved **security**, **performance**, and **SEO**. Updated **database design**.
Laravel 11 **Upgrade** **Role-Based Permissions** **Security** **Performance** **SEO**
Database Design
[🔗 altaqwa.edu.af](https://altaqwa.edu.af)
- **Heart Disease Prediction App**
Machine learning web app for heart disease risk. Reached **84% accuracy** with top F1 and recall. Built and deployed with **Flask**.
Python **Scikit-learn** **Flask** **Machine Learning**
[🔗 heart-ui.cloud-station.app](https://heart-ui.cloud-station.app)
- **E-commerce Development — uniquechoice.online**
Built a full shop from a template. Tuned layout, product flows, and speed to match client needs.
Laravel **PHP** **MySQL** **E-commerce**
[🔗 uniquechoice.online](https://uniquechoice.online)
- **Website Improvement — ncp.af**
Improved a hosting and domain site. Refactored backend, tweaked UI, and fixed bugs to boost speed.
Laravel **PHP** **MySQL** **Performance** **UI/UX**
